EXPERIENCE

Wyzant — *Various Roles*   08/16 - 05/21

Engineering Manager

- Foster learning and development of direct reports by holding effective 1-on-1s, finding or creating growth opportunities
- Work with product and marketing to scope and prioritize a variety of projects
- Cultivate an environment of open, honest, and circular communication and feedback
- Dramatically improved page load times for all of our SEO-facing pages
- Ran several impactful A/B tests and improved A/B testing tools

Full-stack Engineer

- Lead engineer for video answer feature where tutors could answer students' questions via a video recording
- Designed and built an ETL used to select which SEO landing pages to activate
- Rebuild legacy tutor search API in Go w/ Elasticsearch
- Work closely with design team to redo the frontend of our SEO landing pages

iOS Engineer

- Built a real-time messaging platform for our two in-house iOS apps using Alamofire, Gloss, Swift, and Pusher Websockets
- Re-architected apps to simplify overly complex components and lay a stronger foundation for the future

ÄKTA — *iOS Consultant*   01/16 - 08/16

- Collaborate closely with other developers as well as the UI, UX, and product teams to create custom iOS applications for our clients
- Team lead for the UI of the BMW ConnectedDrive app. Worked closely with BMW's in-house developers and stakeholders in an agile environment

Xamarin — *Developer Evangelist*   08/15 - 01/16

- Evangelize the Xamarin platform and associated products by getting involved in the Xamarin developer community and participating in various speaking engagements
- Publish blog content, run personal Xamarin-centered Twitter, monitor Xamarin forums, and create cross-platform demo apps with Xamarin

West Monroe Partners — *Mobile Consultant*   02/14 - 08/15

- Communicate with clients and work through their technical needs with them; building a mutual understanding of project expectations
- Develop and maintain iOS and Android applications in both Objective-C with Xcode and C# with Xamarin
